Executive Summary:

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new cooperative agreement for the development of a national training program for Financial Management and Administrative Governance.

The Community Services Block Grant (CSBG) Training and Technical Assistance (T/TA) Program: National Training for Financial Management and Administrative Governance will fund one Cooperative Agreement to provide national training to State and local CSBG - eligible entities to assist in obtaining the skills and further understanding of the importance of financial management and governance within the Community Services Network.

I. FUNDING OPPORTUNITY DESCRIPTION

Legislative Authority

Sections 678A(a) of the Community Services Block Grant (CSBG) Act of 1981, (Public Law (P.L.) 97-35) as amended by the Community

Opportunities Accountability, and Training and Educational Services (COATES) Human Services Reauthorization Act of 1998, (P.L. 105-285) authorizes the Secretary of Health and Human Services (HHS) to use a percentage of appropriated funds for training, technical assistance, planning, evaluation, performance measurement and monitoring to assist States in carrying out corrective actions and to correct programmatic deficiencies of eligible entities and for reporting and data collection activities related to programs or projects carried out under the CSBG Act.

The Secretary may carry out these activities through grants, contracts, or cooperative agreements. To address program quality in financial management practices, management information and reporting systems, and measurement of program results and to ensure responsiveness to identified local needs, the Secretary is required to distribute funds directly to eligible entities or to statewide or local organizations or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities. The Secretary may carry out the remaining activities through appropriate entities.

Definitions of Terms

The following definitions apply:

CSBG Network - The various organizations involved in planning and implementing programs funded through CSBG. The network includes local eligible entities; State CSBG offices and their national association; State, regional and national associations; and related organizations that collaborate and participate with CSBG-eligible entities and other eligible entities in their efforts on behalf of low-income people.

Cooperative Agreement - An award instrument of financial assistance used when substantial involvement is anticipated between the awarding office (the Federal Government) and the recipient during performance of the contemplated project. Substantial involvement may include collaboration or participation by OCS staff in activities specified in the award and, as appropriate, decision-making at specified milestones related to performance. The involvement may range from joint conduct of a project to OCS approval prior to the recipient's undertaking the next phase in a project.

Eligible Entities - (Section 673(1)(A)) - An eligible entity as described in Section 673(1)(A) of the CSBG Act (as in effect on the day before

the date of enactment of the COATES Human Services Reauthorization Act of 1998) as of the day before such date of enactment or as designated by the process described in Section 676A (including an organization serving migrant or seasonal farmworkers that is so described or designated); and that has a tripartite board or other mechanism described in the subsection (a) or (b), as appropriate, of Section 676B.

Nationwide - The scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant funds. Nationwide projects must provide for the implementation of technical assistance, training, or data collection for all, or a significant number of, States and the eligible entities that administer CSBG funds.

Non-profit Organization - An organization, including faith-based or community-based, that meets the requirement for proof of non-profit status in the "Additional Information on Eligibility" section of this announcement.

State - Each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. Except where specifically noted, for purposes of this program announcement, it also includes Territories as defined below.

Technical Assistance - An activity, generally utilizing the services of an expert (often a peer), aimed at enhancing capacity, improving programs and systems, or solving specific problems. Such services may be provided proactively to improve systems or as an intervention to solve specific problems.

Territories - Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

Training - An educational activity or event that is designed to impart knowledge and understanding or increase the development of skills. Such training activities may be in the form of assembled events such as workshops, seminars, conferences or programs of self-instructional activities.

The priority area of OCS' Fiscal Year (FY) 2006 CSBG Training, Technical Assistance and Capacity-Building Program is as follows:

Priority Area

National CSBG - Eligible Entity Capacity Building

Description

This priority area addresses activities to assist States and eligible entities to acquire skills and further understand the importance of financial management and administrative governance in CSBG - eligible entities.

In order to ensure that OCS meets its compliance and technical assistance responsibilities for the CSBG program and continues its partnership with the Community Services Network, grants awarded under this priority area will be funded in the form of Cooperative Agreements. Cooperative Agreements are to be renewed annually for a specified number of years.

OCS will fund one national non-profit organization to provide national training to local CSBG - eligible entities to help them improve the lives of clients and the conditions of communities in which they live. Specifically, the successful applicant will provide national training to: 1) identify the conditions of poverty and how CSBG eligible entities at the State and local levels may address those conditions more effectively; 2) identify and promote strategies for integrating services within communities to address the multiple conditions of poverty among individuals and families and that help them achieve greater self-sufficiency; and 3) identify and promote strategies for strengthening families through the greater engagement of fathers and the promotion of healthy marriages.

In addition, OCS will support an effort to identify and reward "excellence" among CSBG programs that have achieved measurable outcomes in one or more of the areas described above.

The Pathways to Excellence is a learning and improvement component used to award Excellence in Community Action. This component has been designed to engage the broadest possible number of CSBG - eligible entities in building their capacity to better serve their communities and constituencies. The Award for Excellence is based on the premise that quality, continuous improvements, and excellence are essential to the stability and future growth of the CSBG Network. The model of excellence includes both a "recognition of excellence" award component, and a "learning and improvement" component.

The objectives of this Cooperative Agreement are to:

1. Assist crisis or troubled agencies in reaching stability and eventually organizational strength.

2. Maintain and publicize the practices of healthy agencies and assure their continued well-being through enhanced T/TA.
3. Use the Pathways to Excellence program to support T/TA to those agencies that have the desire to build their organizational capacity.

The process for determining the technical assistance, training and capacity-building activities to be carried out must: a) ensure that the needs of eligible entities and programs relating to improving program quality, including financial management practices, are addressed to the maximum extent feasible and b) incorporate mechanisms to ensure responsiveness to local needs, including an ongoing procedure for obtaining input from State and national networks of eligible entities.

The role of OCS is to provide assistance to States and local communities working through a network of CSBG eligible entities for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals to become self-sufficient.

As a block grant to States, the CSBG statute speaks to OCS' role with States and States' role with eligible entities. The States' role of oversight and accountability is key to the administration and success of this program.

Currently, approximately 40 CSBG - eligible entities are in crisis and approximately 44 are considered vulnerable or at-risk. This is due to non-compliance, inadequately prepared fiscal personnel, reported cost allocation discrepancies, cash flow problems and governance and fiscally-related issues. Although these 84 agencies represent less than eight percent of the total CSBG network, the costs to the individuals, families, communities, and resources mean that this issue is of great significance to ACF.

OCS and State CSBG offices are concerned about the governance and fiscal accountability difficulties facing some of the agencies within the CSBG Network. The CSBG Network has resources of approximately \$9 million with the tripartite governing board as the responsible agent for governing the entire CSBG - eligible entity and all of its programs. The OCS objective will be to work with States quickly to make certain that they conduct strategic fiscal monitoring and proactive oversight so that crisis situations can be averted.

It is anticipated that the proactive work with States and local eligible entity will improve: 1) financial systems, including procedures and

technologies, data and internal controls; 2) State oversight, by strengthening the State Plan requirements and the financial reporting systems and fiscal expertise of governing boards; and 3) the knowledge of financial management. OCS believes that this expertise will assist in the training and development of systems for overcoming fiscal problems with a variety of non-profits. This expertise should help non-profits develop sound accountability systems based on the Office of Management and Budget (OMB) Circulars and standard accounting principles.

The principal purposes of this training, technical assistance and capacity-building announcement is to continue a national effort to build strong administration and financial management capabilities among "at-risk" local CSBG - eligible entities through crisis aversion intervention and timely technical assistance.

This project uses a cooperative agreement as the vehicle for funding. A cooperative agreement is being used because the work plan requirements should be designed to be timely and flexible yet responsive to the actual technical assistance needs of the CSBG eligible entities. As such, the Office of Community Services feels that the satisfactory accomplishment of the goals, objectives and strategies associated with this work plan would require an active partnership between OCS and the successful applicant.

A cooperative agreement is an assistance instrument for which substantial involvement is anticipated between the awarding office and the recipient during performance of the funded activity. Substantial involvement in this Cooperative Agreement may include collaboration or participation by OCS/Division of State Assistance staff in activities specified in the award and, as appropriate, decision-making at specified milestones related to performance. OCS is particularly interested in reviewing all training materials. OCS is also interested in collaborating in the development of the training or service delivery models; approving analytical approaches or the initiation of subsequent phases of the project; assisting in the development of evaluation instruments for use by CSBG-eligible entities; and providing other assistance to program management on technical performance.

4. Intergovernmental Review:

State Single Point of Contact (SPOC)

This program is covered under Executive Order (EO) 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of August 1, 2005, the following jurisdictions have elected to participate in the EO process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, Northern Mariana Islands, Puerto Rico, and U.S. Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a.

Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations, which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by Federally recognized Indian Tribes, need take no action in regard to EO 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in EO 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

V. APPLICATION REVIEW INFORMATION

The Paperwork Reduction Act of 1995 (P.L. 104-13)

Public reporting burden for this collection of information is estimated to average 25 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139, which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Criteria:

Part I THE PROJECT DESCRIPTION OVERVIEW

PURPOSE

The project description provides the majority of information by which an application is evaluated and ranked in competition with other applications for available assistance. The project description should be concise and complete. It should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing the project description, information that is responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

GENERAL EXPECTATIONS AND INSTRUCTIONS

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant-funded activity should be placed in an appendix.

Pages should be numbered and a table of contents should be included for easy reference.

Part II GENERAL INSTRUCTIONS FOR PREPARING A FULL PROJECT DESCRIPTION

INTRODUCTION

Applicants that are required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation

criteria. The text options give a broad overview of what the project description should include while the evaluation criteria identify the measures that will be used to evaluate applications.

PROJECT SUMMARY/ABSTRACT

Provide a summary of the project description (one page or less) with reference to the funding request.

OBJECTIVES AND NEED FOR ASSISTANCE

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

RESULTS OR BENEFITS EXPECTED

Identify the results and benefits to be derived.

The applicant must describe in detail how the proposed project will meet the needs of a nationwide organization with representation from State governments and local and national non-profit organizations.

APPROACH

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

Account for all activities proposed including direct training events, conferences, and publications.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the OMB. This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

Provide a list of organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

EVALUATION

Provide a narrative addressing how the conduct of the project and the results of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities that address the project's effectiveness.

ADDITIONAL INFORMATION

The following are requests for additional information that must be included in the application:

STAFF AND POSITION DATA

Provide a biographical sketch and job description for each key person appointed. Job descriptions for each vacant key position should be included as well. As new key staff is appointed, biographical sketches will also be required.

ORGANIZATIONAL PROFILES

Provide information on the applicant organization(s) and cooperating partners, such as: organizational charts; financial statements; audit reports or statements from Certified Public Accountants/Licensed Public Accountants; Employer Identification Number(s); contact persons and telephone

numbers; names of bond carriers; child care licenses and other documentation of professional accreditation; information on compliance with Federal/State/local government standards; documentation of experience in the program area; and, other pertinent information.

If the applicant is a non-profit organization, it should submit proof of its non-profit status in its application. The non-profit agency can accomplish this by providing any one of the following: a) a reference to the applicant organization's listing in the IRS's most recent list of tax-exempt organizations described in the IRS Code; b) a copy of a currently valid IRS tax exemption certificate; c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrues to any private shareholders or individuals; d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status; or e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

THIRD-PARTY AGREEMENTS

Provide written and signed agreements between grantees and subgrantees, or subcontractors, or other cooperating entities.

These agreements must detail the scope of work to be performed, work schedules, remuneration, and other terms and conditions that structure or define the relationship.

BUDGET AND BUDGET JUSTIFICATION

Provide a budget with line-item detail and detailed calculations for each budget object class identified on the Budget Information Form (SF-424A or SF-424C). Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. If matching is a requirement, include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocation of the proposed costs.

GENERAL

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources (when required) shall be detailed and justified in the budget and budget narrative justification. "Federal resources" refers only to the ACF grant funds for which you are applying. "Non-Federal resources" are all other non-ACF Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s); and last column, total budget. The budget justification should be in a narrative form.

PERSONNEL

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known at the time of application. For each staff person, provide: the title; time commitment to the project in months; time commitment to the project as a percentage or full-time equivalent; annual salary; grant salary; wage rates; etc. Do not include the costs of consultants, personnel costs of delegate agencies, or of specific project(s) and/or businesses to be financed by the applicant.

FRINGE BENEFITS

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

TRAVEL

Description: Costs of project-related travel by employees of the applicant organization. (This item does not include costs of consultant travel).

Justification: For each trip show: the total number of traveler(s); travel destination; duration of trip; per diem; mileage allowances, if privately owned vehicles will be used; and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

EQUIPMENT

Description: "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost that equals or exceeds the lesser of: (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (Note: Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation, shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

Justification: For each type of equipment requested provide: a description of the equipment; the cost per unit; the number of units; the total cost; and a plan for use on the project; as well as use and/or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy, or section of its policy, that includes the equipment definition.

SUPPLIES

Description: Costs of all tangible personal property other than that included under the Equipment category.

Justification: Specify general categories of supplies and their costs. Show computations and provide other information that supports the amount requested.

CONTRACTUAL

Description: Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third-party evaluation contracts, if applicable, and contracts with secondary recipient organizations, including delegate agencies and specific project(s) and/or businesses to be financed by the applicant.

Justification: Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use 45 CFR Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceeds the simplified acquisition threshold fixed at 41 USC 403(11), currently set at \$100,000.

Recipients might be required to make available to ACF pre-award review and procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc.

Note: Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the required supporting information referred to in these instructions.

OTHER

Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to: insurance; food; medical and dental costs (noncontractual); professional services costs; space and equipment rentals; printing and publication; computer use; training costs, such as tuition and stipends; staff development costs; and administrative costs.

Justification: Provide computations, a narrative description and a justification for each cost under this category.

INDIRECT CHARGES

Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not be charged as direct costs to the grant. Also, if the applicant is requesting a rate that is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

EVALUATION CRITERIA:

The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (i.e., from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

APPROACH - 35 points

Factors:

(1) The application will be evaluated on the extent to which the applicant describes a work program that is results-oriented, approximately related to the legislative mandate and specifically related to the priority area under which funds are being requested. The applicant should address the following: specific outcomes to be achieved; performance targets that the project is committed to achieving, including a discussion of and how the project will verify the achievement of these targets; critical milestones that must be achieved if results are to be gained; organizational support, the level of support from the applicant's organization; past performance in similar work; and specific resources contributed to the project that are critical to success.

(2) The application will be evaluated on the extent to which the applicant defines the comprehensive nature of the project and methods that will be used to ensure that the results can be used to address a statewide or nationwide project as defined by the description of the particular priority area.

ORGANIZATIONAL PROFILES - 25 points

Factors:

(1) The application will be evaluated on the extent to which the applicant demonstrates that it has experience and a successful record of accomplishment relevant to the specific activities it proposes to accomplish.

(2) If the applicant proposes to provide T/TA, the application will be evaluated on the extent to which the applicant details its abilities to provide those services on a nationwide basis. If applicable, information provided by the applicant also addresses related achievements and competence of each cooperating or sponsoring organization.

(3) The application will be evaluated on the extent to which the applicant fully describes, for example in a resume, the experience and skills of the proposed project director and primary staff showing specific qualifications and professional experiences relevant to the successful implementation of the proposed project.

(4) The application will be evaluated on the extent to which the applicant describes how it will involve partners in the Community Services Network in its activities. Where appropriate, the applicant describes how it will interface with other related organizations.

(5) If subcontracts are proposed, the application will be evaluated on the extent to which the applicant documents the willingness and capacity of the subcontracting organization(s) to participate as described.

OBJECTIVES AND NEED FOR ASSISTANCE - 20 points

Factors:

(1) The application will be evaluated on the extent to which the applicant documents that the proposed project addresses vital needs related to the program purposes and provides statistics and other data and information in support of its contention.

(2) The application will be evaluated on the extent to which the applicant provides current supporting documentation or other testimonies regarding needs from State CSBG Directors, CSBG - eligible entities and local service providers and

RESULTS OR BENEFITS EXPECTED - 15 points

Factors:

(1) The application will be evaluated on the extent to which the applicant describes how the project will assure long-term program and management improvements for State CSBG offices, State and/or regional associations, and other local providers of CSBG services and activities.

(2) The application will be evaluated on the extent to which the applicant indicates the types and amounts of public and/or private resources it will mobilize, how those resources will directly benefit the project, and how the project will ultimately benefit low-income individuals and families.

(3) If the applicant proposes a project with a T/TA focus, the application will be evaluated on the extent to which the applicant indicates the number of organizations and/or staff that will benefit from those services.

(4) If the applicant proposes a project with data collection focus, the application will be evaluated on the extent to which the applicant describes the mechanism it will use to collect data, how it can assure collections from a significant number of States, and the number of States willing to submit data to the applicant.

(5) If the applicant proposes to develop a symposium series or other policy-related project(s), the application will be evaluated on the extent to which the applicant identifies the number and types of beneficiaries.

(6) The application will be evaluated on the extent to which the applicant describes methods of securing participant feedback and evaluations of activities.

BUDGET AND BUDGET JUSTIFICATION - 5 points

Factors:

(1) The application will be evaluated on the extent to which the applicant indicates that the resources requested are reasonable and adequate to accomplish the project.

(2) The application will be evaluated on the extent to which the applicant indicates that the total costs are reasonable and consistent with anticipated results.

2. Review and Selection Process:

No grant award will be made under this announcement on the basis of an incomplete application.

Initial OCS Screening

Each application submitted to OCS will be screened to determine whether it was received by the closing date and time.

Applications received by the closing date and time will be screened for completeness and conformity with the following requirements.

All applications must comply with the following requirements except as noted:

OCS Evaluation of Applications

Applications that pass the initial OCS screening will be reviewed and rated by a panel based on the program elements and review criteria presented in relevant sections of this program announcement.

The review criteria enable the review panel to assess the quality of a proposed project and determine the likelihood of its success. The criteria are closely related to each other and are considered as a whole in judging the overall quality of an application. The review panel awards points only to applications that are responsive to the program elements and relevant review criteria within the context of this program announcement.

The OCS Director and the program staff use the reviewer scores when considering competing applications. Reviewer scores will weigh heavily in funding decisions, but will not be the only factors considered.

Applications generally will be considered in the order of the average scores assigned by the review panel. Because other important factors are taken into consideration, highly ranked applications are not guaranteed funding. These other considerations include, for example, the timely and proper completion by the applicant of projects funded with OCS funds granted in the last five years; comments of reviewers and government officials; staff evaluation and input; amount and duration of the grant requested and the proposed project's consistency and harmony with OCS goals and policy; geographic distribution of applications; previous program performance of applicants; compliance with grant terms under previous HHS grants, including the actual dedication of the applicant to acquiring additional funding and other committed resources as set forth in project applications; audit reports; investigative reports; and the applicant's progress in resolving any final audit disallowances on previous OCS or other Federal agency grants.

Please reference *Section IV.2* for information on non-Federal reviewers in the review process.

Approved but Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

VI. AWARD ADMINISTRATION INFORMATION

1. Award Notices:

The successful applicants will be notified through the issuance of a Financial Assistance Award document, which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.
